## Geography

It is located in Hunan Province in central China and covers more than 260 square meters. km; most unique in this picturesque neighborhood are more than 3000 pointed peaks , shaped like columns and peaks ; most of them - it's sandstone blocks in height more than 200 meters; lie between the mountain valleys and gorges , streams streaming glitter mirror ponds and waterfalls tape . This picturesque area is more than 40 karst caves and two huge stone bridge , created by nature itself. Also fascinating natural landscapes in

the area protected by the state is a huge number of animals and plants on the brink of extinction, and therefore causing the attention and care

## Glass floor

At an altitude of 1430 m is a 60-meter glass suspension bridge, which is a viewing platform. Views from the bridge opened just amazing. Glass Bridge is always kept spic and span, so initially quite difficult to get used to the feeling of a huge gap in the way. To pass the bridge, give special shoe covers made of cloth so as not slipping.
